Celebrating 25 Years of Serving North Carolina's Children and Families

For all of 2018 Smart Start is celebrating 25 years of serving North Carolina's youngest children and their families. In 1993, the North Carolina General Assembly created Smart Start, appropriating \$20 million to 18 pioneer counties to begin the work of improving the quality of child care, strengthening families, and supporting healthy child development. By 1997, the funding had increased to \$97 million and all 100 North Carolina counties were being served by Smart Start.

Since that time, Smart Start has become a nationally recognized leader in early childhood and healthy development. Our network of early childhood partnerships provides expertise, guidance and infrastructure to ensure North Carolina children receive the care and nurturing they need to thrive. Tailored to meet the specific needs of each community, we invest in early education, literacy, health and family support so that our children are ready to succeed, lead productive lives and contribute to a strong, vibrant North Carolina.

Ready for a Challenge?

Positive interactions between staff and children are a **key element** to having a **high quality** classroom and great learning environment! The Early Childhood Environment Rating Scale (ECERS) item #32 looks at staff and child interactions. NC Foundations for Early Learning and Development (NCFELD) Goal ESD-3 says, "Children form relationships and interact positively with familiar adults who are consistent and responsive to their needs."

Are you:

- Spending time talking with each child about their play and things they are interested in?
- Sitting down with your children, on their level, at meals and during center play?
- Respectful of the children and their feelings?
- Warm and welcoming when children arrive each day?
- Helpful and patient with children who are hurt, upset or angry?
- Encouraging children to be respectful of each other?
- Enjoying the time you have with the children each day?

Here's the challenge...this week put a sticky note and a pen somewhere easy to access in the classroom or in your pocket. Add a tally mark when you catch yourself doing any of the things on the list above. Repeat this for the next couple of weeks. Challenge yourself to have more positive interactions each day!
